AUTHORHOUSE, United States, 2006. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.America s public schools today are unquestionably far from where they were originally. Evolutionary teaching and practice are everywhere in public schools--in the science curriculum, of course, but also in the philosophy of law taught in law schools today. Even Supreme Court justices have demonstrated they have an evolutionary basis in law that affects the way they decide education cases, in contrast with what our founding fathers intended. As this book text details, the downhill trend in the schools is already far progressed. Practically every moral measurement for schools appears on a downhill trend. Interestingly, these statistics break significantly for the worse in the mid 1960s, correlating significantly with the Supreme Court removing prayer and Bible reading from the public schools. Understand that the implication of evolution is that man is the highest product of evolution, through survival of the fittest theory, and therefore man takes the place of God in deciding what s right and wrong. The implication of creation, on the other hand, is that God created everything, and He decides what s right and wrong. It is obvious to me, as it should be to others, why we have a problem with morality from the products of public schools today--they are being taught that they can decide what s right and wrong for themselves, and in many instances, they are getting very little help from their parents. The fact is, America s public school system today is a failing effort, insofar as moral, cultural and civil values, thanks to the influence of evolutionist people and organizations, and the court system. It is my considered belief that, without citizens being well informed and vigilant, America s...
