Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. With no fewer than 50 outline drawings, this themed coloring book provides hours of fun for kids of all ages. Each page contains a simple outline line drawing providing your child with a blank canvas on which to practise and develop their coloring and artistic skills. Color forms an important part of our lives and learning how to use color effectively is an important skill. Let your child learn the difference between using strong, bold, primary colors and more muted, calming pastel shades. Take this opportunity to teach your child the meaning of color in its simplest form. For example, that red is the color of action, energy, ambition and determination, while purple is often used to convey a sense of mystery, fantasy and the future. This is also a good time to start learning which colors work well together, and which clash with one another. The extent to which your child should be encouraged to learn about color will of course depend upon the child's age, but even the youngest of children can begin the learning process with this easy coloring book. To help you in guiding your child, or if your child wishes to work alone with some guidance, there is an accompanying guide for this book, which shows a full color version of each outline drawing. This guide is available as a downloadable PDF file, which can be viewed on a computer, or printed out on a color home printer. Download details for this guide, which is FREE to all purchasers of this book, are provided at the end of the book.
