

Tuberculosis

Filesize: 9.08 MB

Reviews

This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Prof. Buford Ziemann)

TUBERCULOSIS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Forew. by David A. Warrell | This textbook on tuberculosis covers all aspects of the disease: epidemiology, microbiology, diagnosis, treatment, control and prevention. The main part of the book comprises very detailed and richly illustrated clinical chapters. The copious images are the advantage of this book. Chapters on new methods and treatments and on animal tuberculosis are included. This book is based on a wealth of experience in tuberculosis as seen in endemic countries that enjoy free access to advanced investigative and therapeutic facilities. This coexistence of endemicity of the disease and state-of-the-art facilities is rare in poor and developing countries or in rich and developed nations. This multidisciplinary volume will attract all clinicians, laboratory and research workers, epidemiologists, university teachers and students, health care planners and international organizations involved in world health and infectious disease. | Historical Background.- 1 Tuberculosis in Ancient Egypt.- 2 Historical Aspects of Tuberculosis.- Epidemiology.- 3 Global Epidemiology of Tuberculosis.- 4 Epidemiology of Tuberculosis in Saudi Arabia.- 5 The Molecular Epidemiology of Tuberculosis.- 6 Molecular Epidemiology of Mycobacterium bovis.- 7 Tuberculosis in Special Groups and Occupational Hazards.- Microbiology, Immunology, Pathogenesis and Pathology.- 8 Microbiology of Tuberculosis.- 9 The Immunology and Pathogenesis of Tuberculosis.- 10 Pathology of Tuberculosis.- 11 Nontuberculous Mycobacteria.- Diagnosis.- 12 Serologic Testing for Tuberculosis.- 13 PCR and Diagnosis of Tuberculosis.- 14 Hematologic Findings in Mycobacterial Infections Among Immunosuppressed and Immunocompetent Patients.- 15 Immunodiagnostics for Latent Tuberculosis Infection.- Organ-related Chapters.- 16 Childhood Tuberculosis.- 17 Primary Tuberculosis in Adults.- 18 Miliary/Disseminated Tuberculosis.- 19 Tuberculosis and Pregnancy.- 20 Post-primary Pulmonary Tuberculosis.- 21 Endobronchial Tuberculosis.- 22 Pleural Tuberculosis.- 23 Radiology of Pulmonary Tuberculosis.- 24 Pulmonary Function Test and Tuberculosis.- 25 Thoracic Surgery for Tuberculosis.- 26 Radionuclides in Pulmonary and Extra-Pulmonary Tuberculosis.- 27 Tuberculosis of the Heart and Pericardium.- 28 Mycobacterial...
