Not illustrated. 1836 edition. Excerpt: .which rise round he. ads, pointed at the ends, wherein small brown se eds are con X tained. The roots are so many small fibres, and some greater branches among them. The flowers have no scent, but the leaves have a bitter, hot taste. It grows on high sandy ground, for the most part, and sometimes in low places, and under hedge sides, in almost every country. It seldom flowers before July. This plant is of a gentle, cleansing quality, and very friendly to nature. The herb is frequently used to heal any fresh or green wounds, the leaves being bruised and bound on. And the juice of the leaves are also used for old sores, to cleanse, dry and heal them. The decoction of this herb, made up with some sugar or honey, is available to cleanse and purge the body, both upwards...
