Open University Press. Paperback. Book Condition: new. BRAND NEW, Partnerships in Community Mental Health Nursing and Dementia Care: Practice Perspectives, John Keady, Charlotte Clarke, Sean Page, "How useful is this book? I have referred to it often, and found myself quoting information and models of care from it. I lent it to a colleague to prepare a presentation on 'challenging behaviour' to our local carers' group and he thought it was an excellent resource. It is key reading for any mental health professional with an interest in improving the quality of life of people with dementia. I would recommend that all community teams have a copy." Dementia "Overall, this book is useful. It is well-indexed and has helpful summaries and sections on lessons for practice. It is to be hoped that the title will not deter clinicians other than nurses from reading it, as it will be of interest and of use to them too." mentalhealth today "This is an excellent reader aimed at a wide readership. I believe it is particularly appropriate for qualified staff in CMHTs, but also for mental health, occupational therapy and social work students as a comprehensive introductory text for mental health for older people..."
