

Genetic Testing: A Survey of Quality Assurance and Proficiency Standards

By OECD Publishing

Organization for Economic Co-operation and Development (OECD), France, 2007. Paperback. Book Condition: New. 266 x 186 mm. Language: English Brand New Book ***** Print on Demand *****.This report presents the results of a survey of over 800 genetic testing laboratory directors in 18 OECD countries. It provides the first detailed overview of the availability and extent of molecular genetic testing across OECD member countries. The survey asked questions about what sorts of laboratory policies and practices are in place to assure the quality of human genetic testing and the proficiency of those that carry out such tests. It includes information on policies regarding samples and genetic data handling, as well as the transborder flow of specimens. The survey allowed the OECD to compare practices in individual countries in order to inform international action in setting standards and developing guidelines for practice. Based on the survey results, the report puts forward recommendations for action for better quality assurance and proficiency of molecular genetic testing. It shows, for example, that requirements for licensing and accreditation/certification of diagnostic molecular genetic testing laboratories have not penetrated OECD countries to a high degree or with any consistency. Considerable variations exist in mechanisms of licensing,...
