Bolchazy-Carducci Publishers, United States, 2010. Paperback. Book Condition: New. 277 x 213 mm. Language: Latvian, English. Brand New Book. The Legamus Transitional Readers are innovative texts that form a bridge between the initial study of Latin via basal textbooks and the reading of authentic author texts. This series of texts has been developed by a special committee of high school and college teachers to facilitate this challenging transition. Cicero: A Legamus Transitional Reader introduces students to Cicero's Latin via selections from his *Pro Archia*. Introductory materials include an overview of the life and works of Cicero, historical context, and bibliography. The authors combine special visual features—including line alignments based on meaning with the pass-through method—to make Cicero's sometimes complicated prose more student-friendly. Appendices on grammar and figures of speech as well as a pull-out vocabulary complete the book's student aids. After finishing Cicero: A Legamus Transitional Reader, students will be prepared to undertake a more complete study of Cicero in an upper level Latin literature or college level course. Features: pre-reading materials to help students understand underlying cultural, historical, and literary concepts; review explanations of grammatical and syntactical usage, with practice exercises; pass-through approach that begins with the main statement and adds clauses with each pass thus assisting students in unraveling Cicero's complex sentences; first versions of the Latin text with transitional aids: lines aligned to facilitate comprehension, implied words in parentheses, difficult noun-adjective pairings in different fonts; complete vocabulary and grammatical notes on facing pages; post-reading materials that encourage appreciation of Cicero's style, reflection on what has been read, and making connections to the modern world; final version of each Latin text without transitional aids, but with notes and vocabulary; pull-out vocabulary of frequently used Latin words; four maps and eighteen illustrations that complement the Latin selections and background essays.
